October 26th, 2015

To Our Valued Independent Distributors and Independent Service Center Directors:

Good morning!

The LONG wait is OVER! Finally the **monthly 100 PPV maintenance** will soon be implemented for DXN Peru members...

Increase your bonus, increase your maintenance, and get high with 100 PPV!

It is with great excitement for us to announce that effective **from 1st January 2016**, **ALL Star Agents and above** are required to have maintenance of 100PPV in a month in order to be considered a Qualified Star Agents (QSA).

The good news is that this will give the opportunity for ALL star agents and above to get an additional **4%** in their Star group Bonus. This means instead of the usual 21% Star Group Bonus of Star Agents who only maintain 30PPV now they can have the **maximum percentage of 25% Star Group Bonus** and will continue to enjoy the **Development Bonus** for every QSA under their line maximum up to 5th active QSA Level.

That's not the only benefit of the 100 PPV maintenance, QSA and QSD will also be assured of **higher TSI points** which will give them a **Travel of a lifetime** and an unforgettable experience of a lifetime. While for **Qualified Star Diamonds** they will continue to enjoy their Leadership Bonus, International profit Sharing and have better assurance of duplicating Qualified Star Diamonds this time with higher DGPVs.

So get ready....get high...advance yourself and enjoy the experience of higher income that will change your life.

We wish everybody happy higher earning with DXN!

Attentively,

DXN Management.
