To Our Valued Independent Distributors and Independent Service Center Directors

Good Morning DXN!

Effective IMMEDIATELY all the Independent Distributors and/or Independent Service Center Directors are requested to inform the DXN Management and seek written consent / approval before inviting / contacting an Independent International DXN Distributor as a SPEAKER for ANY DXN ACTIVITY not limited to an event, convention, training, online webinar etc, for the local country's market.

Further note that certain marketing strategies applied in the international market may be in strong conflict with our local country's laws, regulations and may not be beneficial in consideration to the local market culture and traditions.

In order to avoid any dispute and confusion in the market, DXN management has decided to prohibit the implementation of any activity with International Distributor(s) as speaker(s) that is without a prior notification and approval from the DXN Management. This is regardless of the fact that the arrangement has already been paid or event(s) are scheduled.

Your kind understanding and support will be deeply appreciated.

Thank you

DXN Management
